

The London Institute of Tibetan Studies acts as a forum for Tibetan academic knowledge and facilitates its development through public talks, conferences, short courses and online resources. The Institute also offers courses related with Tibetan culture based on the the Five Great Fields of Knowledge such as the Arts, Language, Medicine, Philosophy, Buddhist Studies and Meditation.

[The London Centre Project - Be part of it!](#)

We are key participants in a venture in which the Dzogchen Community UK are buying a centre in London and we need your support in order to make it happen. It will be the home of the Shang Shung Institute UK and house all of our activities. It is a major step forward for us. You can be a part of it too!

Our fund raising projects for the London Centre have already raised over £80,000 but we aim to raise a further £20,000 by the end of 2014 towards a deposit for the purchase of the required property. If we are successful in obtaining our target, the London Centre will be established in 2015. Updates on progress towards our goal can be viewed on the website: www.londoncentre.info
